

# 04. Building Cost Estimator

The Simple, Do-It-Yourself Way To Estimate Your Number

## The #1 Question ...

The most dreaded question architects, builders and every other professional hates has got to be, 'how much will my project cost'?

There are so many variables that a definitive answer is literally impossible. Even worse, the consequences of trying to answer and risk giving 'bad advice' will have most experts running away to avoid the question.

The problem is that this question is VERY important. No one can proceed if they don't have a ball-park estimation of cost.

This guide will help you to determine an estimate of overall project costs. Your actual number may be more or less, but it can be helpful to see an estimated figure.
